

Vinicius da S. Guislande Bassi

Web Designer | UI Engineer

São Paulo, Brazil

Professional Summary

Web Designer and UI Engineer focused on building intuitive, scalable, and high-performance digital experiences. Strong background in UI/UX design, responsive web interfaces, and visual systems for digital-first brands. Experience working with global companies and designing for both web and email marketing campaigns, balancing aesthetics, usability, and business goals.

Professional Experience**Superside – UI/UX Designer**

Designed interfaces for major global companies including Amazon, Reddit, and Vimeo, working across web platforms and email marketing assets.

Studio Carthagos – Web Designer

Designed and developed responsive interfaces for digital-first brands, applying a 360-degree design approach across multiple touchpoints.

Grupo Rái – UI Designer

Developed data-driven interfaces for global brands such as Adidas and Yakult, including projects related to large-scale international campaigns like the Champions League.

UX Agency – UI/UX Designer

Conducted user research, designed interfaces, and contributed to design systems and user flow optimization initiatives.

Devio – Multimedia Designer

Worked with a full-stack design approach for a software house, supporting new brands in launching digital products and platforms.
